MORE INFO

COLOR SHOWN: COOL BLACK

Beat the Heat. Do It in Style.

Our Premier Radiance® shingles provide more than just a roof over your head. Infused with solar-reflective granules, this shingle reflects heat-producing ultraviolet rays from the sun back into the atmosphere, which may reduce heat transfer into your home. Premier Radiance is available in several vibrant colors, so you don't need to compromise on style.

By utilizing PABCO® Roofing Product proven cool technology, Premier Radiance solar reflective shingles are perfect for hotter climates where air conditioning use is high and meets UL 790 Class A Fire Resistance Standard.
